

LIVIU-VALENTIN BORDEA

COMPUTER SCIENCE GRADUATE WITH A PASSION FOR TECHNOLOGY AND CYBERSECURITY

ABOUT ME

I am a highly motivated and detail-oriented Computer Science graduate with a specialization in Cybersecurity. My academic journey has provided me with a solid foundation in programming, software development, and cybersecurity principles. I am eager to apply my knowledge and skills to real-world challenges and am committed to continuous learning and professional growth.

PROJECTS

Bachelor Thesis: Educational Android App for Kids

Developed an Android app from scratch using Android Studio and Java, providing interactive educational content for children. This project required skills in UI/UX, full-stack development, and project management.

RFID Security Project

Explored the feasibility of using an Android device to emulate an RFID card for access control. Conducted in-depth research on RFID technology and Android capabilities, progressing until the requirement to root the device was identified, demonstrating strong problem-solving and research skills.

Web Development for Educational Institution

Utilized a web development platform to create a site that allowed school management and staff to securely upload and share administrative materials. This solution improved internal communication and streamlined access to key documents.

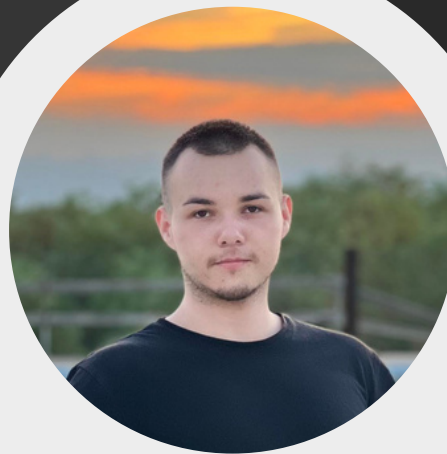

Interactive TikTok Game

Created an interactive game for TikTok Live, where viewers answered questions in real-time using an API to capture and display user responses. This project boosted live engagement and encouraged audience participation.
