LIVIU-VALENTIN BORDEA

COMPUTER SCIENCE GRADUATE WITH A PASSION FOR TECHNOLOGY AND CYBERSECURITY

ABOUT ME

I am a highly motivated and detail-oriented Computer Science graduate with a specialization in Cybersecurity. My academic journey has provided me with a solid foundation in programming, software development, and cybersecurity principles. I am eager to apply my knowledge and skills to real-world challenges and am committed to continuous learning and professional growth.

PROJECTS

Bachelor thesis project: Developed an Android application for kids as part of my Bachelor's thesis, using Android Studio and Java as a programming language. The application aimed to provide educational content for kids in an interactive and engaging way. The project required skills in UI design, programming, and project management.

Personal project with RFID and security: Undertook a personal project to use an Android smartphone to emulate an RFID card and open a lock. This project helped me gain a deeper understanding of RFID technology, security issues and problem-solving skills. I developed the project on my own, demonstrating my self-motivation and ability to learn new skills independently.

Web development for educational institution: Developed website for educational institution, including a content management for teachers to upload and share materials. These projects provided me with experience in web development.
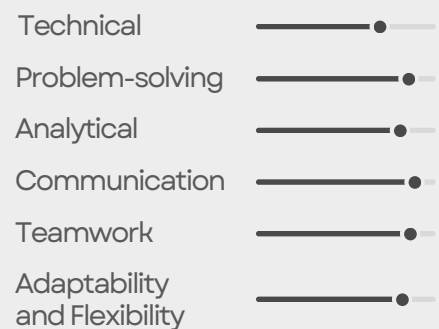

EDUCATION

Master's degree
Cyber Security
2022-present
West University of Timișoara

Bachelor's degree
Computer Science
2018-2022
West University of Timișoara

CERTIFICATIONS

Introduction to Bitcoin and Open Blockchains Workshop, Pragma Workshops, Teacher Andreas M. Antonopoulos - Certificate of Achievement

MY SKILLS

- Technical
- Problem-solving
- Analytical
- Communication
- Teamwork
- Adaptability and Flexibility

LANGUAGE

Native language: Romanian
Second language: English
